CAREER OBJECTIVE

"As a dedicated IT professional with 1.5 years of hands-on experience in frontend and backend development, I have worked on building scalable, high-performance web applications with a strong focus on code optimization, load testing, and system efficiency. I am passionate about writing clean, maintainable code and delivering user-centric solutions that perform reliably under real-world conditions. I enjoy collaborating with cross-functional teams to solve complex problems and continuously enhance application performance. My objective is to contribute my technical expertise to impactful projects while growing as a developer and adding long-term value to the organization."
